KEY TALKS NOW UNDER WAY

Socialists May Back General as Premier

PARIS (CP) — Socialist leader Guy Mollet left Paris today for a meeting with Charles de Gaulle that could pave the way for the general's investiture as premier.

Mollet, accompanied by Maurice Deixonne, chairman of the Socialist parliamentary group, flew to the general's country home for the key talks. They planned to report back to the Socialist deputies tonight.

The nearly 100 Socialist members of the National Assembly have represented the main stumbling block to de Gaulle's return to power.

Mollet conferred at the Elysee Palace with President Rene Coty before his 150-mile flight to de Gaulle's country home at Colombey-les-deux-Eglises.

The French president has declared that the nation either accepts de Gaulle or faces civil war.

The 67-year-old world war hero waited at his country home at Colombey-les-deux-Eglises 150 miles away after agreeing to take the helm of state, but on his own stiff terms.

The atmosphere at the president's Elysee Palace was less tense. But the politicians were sombre as they left after hearing Coty outline the program de Gaulle laid down Thursday night.

Former Premier Guy Mollet, whose Socialists hold the answer to whether the National Assembly will accept de Gaulle, arrived and stayed longer than the leaders of other political parties.

The Socialists, who fear de Gaulle as a potential dictator, were reported planning to send Mollet or former president Vincent Auriol to confer with de Gaulle at his country home.

The Socialist's 97 votes in the National Assembly can send de Gaulle to the premiership. While they have been opposing de Gaulle steadfastly at an almost-continuous party caucus, there were reports they were weakening.

Hanging over the meetings and over all France was the grim reminder from the French insurgents in Algeria that the army there is ready to move if de Gaulle's road to power is blocked.

Extra police guards were ordered to the Champs Elysees after tracts were distributed all over Paris calling for both de Gaulle and Communist demonstrations at the same time. This could only spell trouble.

All public demonstrations in Paris have been banned since the May 13 military-settlers revolt in Algeria. But police kept hands off the massive leftist demonstration two days ago and Thursday night's exuberant de Gaulle demonstration.

STUDENTS GATHER

There was a demonstration at the lycee (school) Buffon by 300 re-segregated students from the fairly well-off families of the district. They gathered in front of the closed gates of the school and demanded that it be opened. It is closed by a strike of anti-de Gaulle teachers.

14 Percent Pay Hike for Teachers in Summerland

SUMMERLAND — A pay boost averaging 14 per cent for Summerland School District No. 77's 39 teachers was approved last night in finalization of the 1958 teachers' salary agreement.

The new agreement adds \$20,000 more than last year to the school board's teachers' salary bill bringing it to \$183,000 for regular teachers this year.

The new scale is exactly the same as that agreed on in Vernon and Penticton school districts starting at a low of \$2,400 per year for elementary school teachers with third class certificate and no experience, to a high of \$8,800 for high school teachers with first class certificate and full experience.

WOMEN CRACK WHIP, DRIVE HUSBANDS TO EARLY GRAVES

NEW YORK (AP) — A currently popular view of the American woman is that she has two heads, breathes fire and beats her husband every morning before breakfast.

She is accused of wearing the pants in the family and wielding the whip, of pushing her husband to an early grave and robbing him of his manhood.

The latest diatribe against the beleaguered American female is a grim little book called "The Decline of the American Male," by three males. It is illustrated with macabre sketches showing helpless little men being squashed like bugs beneath the thumbs of giant women, lashed to a tread-mill or driven into a rat race.

According to the three authors, Mr. America is in a bad way. His wife, they say, makes all the decisions of daily living, up to and including sex. She gives him an apron and makes him do the housework.

She forces him to greater and greater exertions in order that she may keep up with her girl friends in mink coats, diamonds and automobiles.

The authors don't offer much of a solution for the burdens of the modern man, except to suggest that he really should revolt. But they conclude:

"The only trouble is, would his wife object?"

23 Nurses Quit Quebec Hospital

HULL, Que. (CP) — Sacred Heart Hospital was feeling the staff pinch after 23 of its registered nurses resigned early today over wage demands.

The nurses' written resignations were turned in by union business agent Fernand Philion after an 11th hour meeting Thursday night of the Hull Registered Nurses Syndicate, an affiliate of the Canadian and Catholic Confederation of Labor.

Reduction in CMHC Interest Rates Opposed

OTTAWA (CP) — Works Minister Green said today there is no intention of reducing interest rates on loans made through Central Mortgage and Housing Corp.

Mr. Green, who reports to Parliament for the corporation, said a reduction in interest rates would be "detrimental to the best interests of the country at the present time."

In reply to J. R. Garland (L-Nipissing), Mr. Green said the government has received no notification of a reported plan by the House of Rothschild to invest \$500,000,000 in Canadian home building.

"We should be very glad to see money invested by anyone in housing in Canada," Mr. Green added.

Philion said he expected more resignations today from the 40 union nurses on the staff.

The hospital also has seven non-union nurses and 65 student nurses. Ten nurses of the Roman Catholic Order of Providence, which operates the institution, also are nurses.

CANCEL SURGERY

When Philion arrived at about 1 a.m. with the letters, he had to go up to the sixth floor to deliver them to busy Sister Marie Telesphore, director of nursing.

She and one registered nurse, along with student nurses, were keeping early-morning watch on the some 280 patients on five of the hospital's nine floors.

Today's surgery had been cancelled in anticipation of the mass resignations.

Thursday night's meeting followed a last-minute offer by the nurses to inaugurate mediation which hospital authorities turned down. A hospital spokesman said authorities were waiting to see whether the nurses really would go ahead with the midnight resignations they had threatened.

The nurses had reduced earlier demands and were asking a pay range of \$225 to \$280 monthly which, they said, prevailed in other hospitals in the Ottawa-Hull area. Their present scale was \$205 to \$225. The nurses also wanted a 40-hour week.

The hospital had offered an across-the-board increase of \$10 a month for a 48-hour week or \$5 for a 44-hour week.

QUEEN, PRINCESSES WAVE GOODBYE

Off to attend celebrations at the Grand Coulee dam, Washington, goes Penticton's Peach Festival royalty. With Mr. and Mrs. Ken Almond, the trio left by car this morning for the Colorama

Festival at Grand Coulee. In the back seat are princesses Kris Tillberg and Sharon Vagz with Queen Val Vedette XI, Maureen Pritchard, seated in front.

Gov't Take-Over of Utilities Demanded

URGENT CIVIC CORRESPONDENCE is answered by Mayor Eunice Wishart, of Port Arthur, Ont., during her brief stop-over in Penticton before leaving today for the Canadian Mayors' convention in Victoria. She also found time to send picture postcards of the Okanagan to her two grandchildren back East. Though taking little interest in public life, husband Jack is enjoying being with his busy wife on the business and pleasure trip.

Mayors in Danger of Becoming 'Figureheads'

By CHARLES NEVILLE
Herald Staff Reporter

Mayors in Eastern Canada are in danger of becoming "figureheads."

That's the opinion of Mrs. Eunice Wishart, grandmother of two, who at a time of life when most women like to take it easy, is enjoying a third, hectic term as Mayor of Port Arthur, Ontario.

Getting things done quickly is sometimes frustrating for the chief magistrate of Port Arthur, population of 40,000, because of the increasing influence of the provincial government in municipal affairs.

Unionization of civic employees also makes civic administration more complicated.

"City council has seven unions to deal with," Mayor Wishart told a Herald reporter in Penticton today.

One of seven women mayors in Canada, she arrived here last night during a combined sight-seeing and business trip across the country by bus. She is accompanied by her husband, Jack Wishart, an Ontario businessman.

Mayor Wishart left today for the Canadian Mayors' convention in Victoria, Sunday. She is vice-president of the Ontario Mayors' Association.

On arrival here Mayor Wishart renewed acquaintance with Alderman Elsie MacCleave, of Penticton, whom she met at a Civic Defence course in Ontario two years ago. Alderman MacCleave extended a civic welcome on behalf of Mayor Charles Oliver.

Asked by a reporter why more women are not active in local government, Mayor Wishart said: "They just don't have time—their families come first. It was not until my two children had grown up that I could take part in civic affairs."

She became a Port Arthur alderman 12 years ago and twice was chairman of the city's finance committee.

What does she like about the West?

"It's wonderful," she said. "I was amazed how good your roads are for one thing. And I'm particularly interested in the expansion out here because that means more business for us at the Lakehead."

TODAY'S BULLETINS

Veterans' Committee to Be Set Up

OTTAWA (CP) — The government asked Parliament today to set up two new standing committees—one on estimates and one on veterans' affairs. The veterans' committee, set at 40 members with a quorum of 15, would "comprise members from all parts of the House who know the problems of the veterans."

Bryan Wins Big U.S. Auto Race

INDIANAPOLIS (AP) — Jimmy Bryan, top-ranking U.S. professional auto racer, won the 42nd Indianapolis 500-mile race today, a terrific battle marred by a wild 12-car crackup that killed veteran Pat O'Connor.

LISTEN TO THESE WOMEN

You've Got Trouble?

By HAL R. COOPER

LONDON (AP) — Members of the female sex always claim they have more troubles than anybody. After what happened in England Thursday this will be difficult to deny.

A girl wound up in court charged with burglary because the elastic in her panties gave away.

A girl pulled the wrong chain and stopped a train carrying 300 passengers.

A girl was parted from her bridegroom by the town council, which held that his presence overcrowded the house they lived in.

And the strongest girl in the world lost her grip on her fiancé.

PERFIDIOUS PANTIES

First, the case of the perfidious panties. They belonged to Mrs. Maude King of suburban West Ham. She was walking down the street when the elastic snapped.

As the panties began their slow but certain slither into public view, comely Mrs. King looked

frantically about for cover. Spying what she thought was a vacant bungalow, she popped in through a window to make emergency repairs. At this point the front door opened and in walked the bungalow's owner, Frederick Dowle. He called the police.

Mrs. King blushing told the judge her version of the incident. He acquitted her.

WOULDN'T WORK

Meanwhile, in East Anglia a fast train from London jolted to a halt several miles short of Norwich, its destination. Somebody had pulled the emergency brake chain. Reported the conductor:

"I walked along looking for the coach where the chain was pulled. I decided it had been pulled inside a toilet. When I rapped on the door out darted a frightened school girl, almost in tears."

"I pulled and pulled, and I can't make the lavatory go," she gasped.

CCF Opens Big Convention Today

By JACK BEST
Canadian Press Staff Writer

VANCOUVER (CP) — Demands for the expropriation of B.C. Electric, huge British Columbia power and utilities concern, will be heard at the provincial CCF convention which opens here today.

The demands are expected to be the opening shots in a renewed controversy over government-versus-private management of hydro facilities in power-short B.C.

Resolutions calling for the takeover of B.C. Electric and its parent body, the B.C. Power Corporation, are among some 130 to be placed before delegates. Another calls for expropriation of the B.C. Telephone Co.

B.C. Electric and B.C. Telephone have applications for sizeable rate increase pending with the public utilities commission and the board of transport commissioners respectively. Hearings have already begun.

FIRMER STAND

The CCF, official opposition to the Social Credit government of Premier W. A. C. Bennett, for 20 years has called for Crown ownership of B.C. Electric. This year the party appears to be more voluble than ever in its stand.

Robert Strachan, provincial leader, says he has a plan for buying out the huge corporation, second largest private corporation in Canada. If CCF gets into office, the next provincial election is expected in 1960.

One of the first acts of a CCF government would be to raise about \$400,000,000 to buy out the

company, he said. He said he believes the stock market value of B.C. Electric stock is about \$480,000,000, but an evaluation likely would put actual value lower.

Mr. Strachan said the CCF's objective is to provide B.C. with a single power authority operating a single grid of transmission lines like the Ontario Hydro-Electric Power Commission.

PUBLIC MONEY

Both the Columbia and Peace Rivers should be developed with public money, rather than private, the CCF holds. It has clashed with the Bennett government over development of the Peace, which is being surveyed by interests representing Swedish industrialist Axel Wenner-Gren.

Premier Bennett has said the Peace River could provide B.C. with 4,000,000 horsepower and with a powerful weapon in negotiations with the U.S. over development of the Columbia.

Both B.C. and the U.S. Pacific northwest are desperately in need of additional power. However, lacking an agreement on what portion of downstream benefits should be returned to Canada, this country has refused to begin exploiting the Columbia's potential.

Premier Bennett's idea of meeting B.C. needs with Peace River power has met with skepticism in some quarters, where it is argued that distances involved are too great.

Exploitation of other rivers, such as the Fraser, has been blocked by salmon fishery interests.

Free University Education Urged

OTTAWA (CP) — Amid opposition from Quebec delegates, the Canadian Home and School and Parent-Teacher Federation today supported a resolution urging free university education.

Lengthy debate marked the presentation of the Manitoba-sponsored resolution as more than 60 delegates from nine provinces met for final business sessions of a three-day meeting. Newfoundland is not represented.

The resolution, proposing free university tuition only, urged federal and provincial governments and Canadian universities to make education free to "all academically qualified children of Canadian residents."

F. W. Price of Montreal said the resolution would increase the difficulties in dealing with his province on education matters.

He said there are "extremely delicate negotiations" now going on with Quebec.

However, delegates defeated Mr. Price's motion to refer the resolution back to provincial federations for further study and a report next year.

Six provincial presidents, backed by their delegations, supported the resolution. Prince Edward Island, New Brunswick and Quebec voted against it.

Other delegations, with the exception of Alberta, supported a motion by Mrs. C. E. Woolgar of Montreal to record Quebec delegates' opposition to the resolution and to leave Quebec off the list of provincial authorities to which the resolution will be submitted.

Manitoba delegates Jean Legasse of Norwood and Mrs. John Blackwood of Brandon, strong in their support of free university education, said it would give more opportunity to financially restricted students and would help provide needed professional people.

SHOULD TAKE LEAD

Mr. Legasse said home and school organizations should take leadership in the issue. University education was becoming as necessary now as high school education was a few years ago.

E. F. Watkins of Winnipeg said the resolution was a reaffirmation of home and school principles.

"We either want free education for our children at all levels or just want to include senior high school and then let the devil take the hindmost," Mr. Watkins said.

\$35 Fine Follows Car Collision

Laurent Le May of Savona was fined \$35 and costs in Penticton court yesterday for driving a car on Main Street, Penticton without due care and attention.

It was stated Le May collided at a crosswalk with a stationary car driven by Jack Harold Lawrence of Penticton.

For failing to comply with a stop sign at Klondike Junction John Crittenden of Kelowna was fined \$10 and costs.

Robert Burtwell of Vancouver was fined \$10 and \$3 costs for not dimming his car lights on the approach of another vehicle.

SWIM WITH SAFETY

Swimming is a healthful summer sport...

Each year the death toll from drowning continues to climb! Last year, 416 Canadian men, women and children lost their lives by drowning, and to date this year (though less than last year at this time,) 16 people have drowned in Saskatchewan alone. In most cases the cause of death by drowning is carelessness . . . either by a child, or by the child's parent or guardian. This weekend — and every time you go swimming — take precaution. The life you save may be your own . . . or that of YOUR child!

This message is sponsored in the interest of Safety by the following Public-Spirited Business Firms.

Stamp Out The Needless Loss Of Life By Observing These

21 WATER SAFETY RULES

Read them . . . obey them . . . and you and yours will live to enjoy another summer! Ignore them and YOU alone are responsible for any drowning tragedy which may occur in YOUR family!

Phones Converted To Dial at Oliver

OLIVER — Three years of planning and preparation were climaxed here yesterday morning when the close to 1,000 telephones in this area were converted to automatic dialing in a smooth operation that took two minutes.

The conversion, which cost B.C. Telephone Company \$271,000, began at 12:10 a.m. yesterday. Cost included \$50,000 for a new building at Fourth Avenue and First Street, \$80,400 for dial switching equipment, and over \$84,000 for outside plant equipment.

Introduced at the same time as the automatic dialing, was a 2-5 numbering system for both Oliver and Osoyoos. Oliver numbers now begin with HYacinth-8 and Osoyoos with HYacinth-5.

Free calling was also instituted between the two communities eliminating the 10 cent toll call in effect heretofore.

The conversion means too that

there are no longer any telephone operators at the Oliver office. Long distance and information service will now be handled by the Pentiction office of the Okanagan Telephone Company. The 14 operators formerly stationed at Oliver have all been offered positions in other B.C. Telephone exchanges, and four are going to Chilliwack, one to Creston and one to Radium while some have accepted other positions.

A special dinner to mark the conversion to dial phoning, was held last night. Those present included Frank Richter, MLA for Similkameen; H. H. Hesketh, Oliver village commission chairman; H. R. Potter, board of trade president; Ted Trump of Trump Ltd.; Arthur Garrish, B.C. Fruit Growers Association president; and B.C. Telephone Co. officials. Mr. Potter presented corsages to Miss Mary Buchanan, chief operator; and Mrs. Annie Ross, local representative.

Inspection Forced Indoors by Storm

KEREMEOS — Officers, members of the civilian sponsoring committee, parents and visitors, and Squadron 582, Royal Canadian Air Cadets and Cadettes were disappointed Wednesday evening, when the annual outdoor parade and inspection was washed out because of an electrical storm and accompanying downpour.

The squadron moved to the auditorium of Similkameen High School, where a brief inspection was made by Air Commodore A. D. Ross, commander of No. 5, Air Division, Vancouver Air Commodore Ross was accompanied by Flt.-Lieut. Carling, Flt.-Lieut. C. Finch, O.C. of the Squadron and Adjutant E. C. Clarke and G. H. Fawcett, chairman of the Civilian Sponsoring Committee.

The Squadron was addressed by Air Commodore Ross, who emphasized good citizenship and a sense of responsibility, and told the group that in their extra-curricular activities each was doing a good job for the community.

The chairman of the Sponsoring Committee presented awards to Cadet-Sgt. L. Vanderlinde and Cadette-Sgt. Doris Munden, selected by a committee of three as having done the most for Squadron 582.

Awards were also made to Cadet-Cpl. Lorne Lawlor, the best shot in the squadron and to Gerry Clark, the best shot in the unit.

Mr. Clerihue, addressed the squadron on behalf of the Provincial Sponsoring Committee. Air Commodore Ross promised the squadron a flight before the end of June. A dance followed the inspection with refreshments served by the Ladies' Auxiliary to the Squadron.

Head area south of the Boyd property, the Sand Hill and Trout Creek were all affected. In some cases over 75 per cent of the crop is believed to have been destroyed. The hail is said to have been uneven and small, but cut and marked apples and some pears badly.

Mutual Hail Insurance adjusters were working in Summerland Thursday morning. A number of orchardists had hail insurance.

The Gas Co.'s plans for taking their line down Hospital Hill to serve the Cornwall Cannery were also accepted. The line will be put in between the cannery and the fish hatchery.

Farmers' Union Work to Be Explained Here

Alms and operation of Canadian Farmers' Union will be outlined to agriculturists of the Pentiction area next week by Tom Patterson of Ottawa, president of the Interprovincial Farm Union Council.

Mr. Patterson will speak at a public meeting here Friday, June 6 in the Inco Hotel, beginning at 8 p.m.

The Pentiction meeting will follow addresses by Mr. Patterson at Salmon Arm, June 3; Armstrong, June 4; and Rutland, June 5.

He is in B.C. at request of the B.C. Farmers' Union, strongly active in the North Okanagan, Fraser Valley and Peace River areas.

Mr. Patterson's council is comprised of representatives from farmers' unions in each province, representing them in discussions with the federal government.

DAVE COUCH AND "JESSIE"

Tour Afoot "More Fun Than Chasing Dollar"

By CHARLES NEVILLE
Shunning security a 21-year-old English immigrant to Canada set off on foot to see the wonders of the New World.

He arrived in Pentiction Thursday after working his way through each of the provinces, except New Brunswick, and 13 of the American states.

"It's been a wonderful experience," Dave Couch told a Herald reporter. "It was more fun than chasing the dollar and becoming a slave to payments on a big car."

Accompanied by his dog "Jessie," the young Yorkshireman recently completed a 15,000 mile trip in the States, hitch-hiking most of the way. It took him only seven weeks.

After travelling almost constantly since arriving here from Doncaster, Yorkshire in December 1955, Dave has returned to B.C. — "the part of the world I like best."

His only steady job during two and a half years was as an electrician's helper in Calgary but he prospected for gold and base metals in Canada and the U.S.

A chance meeting in the Cariboo with Frank Wilson, the "Klondike Kid," interested him in the life of a prospector. After advice and training from helpful old-timers Dave tried his luck panning the Quesset River.

He was "quite excited" to pan gold at the first attempt but enthusiasm waned after a week's work brought in only a few dollars-worth of the precious metal.

Though he has yet to "strike it rich" the youthful adventurer enjoyed his experiences and picked up first-hand accounts of prospecting in B.C. at the turn of the century.

HEALTH RESTORED
Invalided out of the Royal Navy with T.B. at 16 Dave says wandering in North America has completely restored his health and he has made a host of friends.

Bivouac under the stars in B.C., Arizona or wherever his travels have taken him, he has written poetry, mainly about life in the Canadian bush.

He is now looking for a "grub stake" in the Okanagan after an unsuccessful job hunt on the coast.

"When I can earn some money I intend to take a course in journalism so that I can sell stories of my experiences. I also plan to write a book," he said.

Immunization Clinic Wednesday
A special immunization clinic will be held Wednesday, June 4 in the Pentiction Health Centre, Eekward Avenue East for immunization for diphtheria, whooping cough, tetanus, smallpox and polio.

If children require any of these injections, please telephone the Health Centre at 6116. Children entering school in September should be done at this clinic.

MEASLES CASES
Measles headed the list of communicable diseases reported in the January-April 30 period with 441 cases occurring. Mumps was second with 109 cases.

Other diseases during the period were chickenpox, 90; pertussis, 28; conjunctivitis, 22; rubella, 26; cancer, 20; salmonella, 8; infectious hepatitis and shingles, 3; tuberculosis, 2; and meningitis, one.

A total of 15 awards were presented—five in each of three dollar-volume classifications.

Rambler

The 1958 "low priced" cars won't fit many garages, and rarely fit some driveways. It's a fact! But, the compact Rambler, even though it comfortably fits any garage, has interior width equal to (and, in most cases wider than) cars of the so-called "low-price" 41. The advanced engineering of all-welded construction makes it possible for Rambler to be bigger, inside (where it counts) and more compact on the outside. So with no sacrifice of passenger comfort you can have a car that is easier to handle and park and will fit your present garage and driveway.

FITS YOUR GARAGE, AND DRIVEWAY

WATER CONTAMINATION REVIEWED

Wood Ticks Hazard For Hikers in Area

South Okanagan and Similkameen residents are warned of a heavy infestation of wood ticks throughout these areas, in the second quarterly report for 1955 from Dr. D. A. Clarke, director of the South Okanagan Health Unit.

"Parents are asked to be on the alert for presence of hard black ticks on their children following excursions in the hills," Dr. Clarke cautions.

Noting that several ticks have been removed by health unit personnel this season from school children in Pentiction and Kelowna, the report adds:

"Engorged ticks can produce ascending paralysis of the body and eventual death if not removed."

Reviewing the Health Unit's sanitation and hygiene service activities for the past three months, Dr. Clarke repeats previous warnings of contamination of private and domestic water supplies in parts of the area.

SKAHA LAKE URGENT

It is becoming increasingly urgent that domestic water be provided for the Skaha Lake area of Pentiction," Dr. Clarke's report states, noting that a number of meetings have been held by Pentiction city council and Skaha Lake ratepayers in efforts to make arrangements for a "safe domestic water supply."

The Kaleden water supply is listed as "grossly polluted-silt problem" with 52 per cent of the 25 water portions tested in the past three months, showing positive signs of contamination.

Water supply at the Naramata School is listed as unsatisfactory with 15 per cent of the portions tested being positive.

Naramata Irrigation Board has been advised to chlorinate its combined domestic-irrigation water supply. Meanwhile operators of motels and public places have been advised their water supply is contaminated and a proper safe water supply must be provided immediately.

Chlorination is also urged at Keremeos and Okanagan Falls with the need being particularly urgent at Keremeos where the village commissioners have been advised to engage a competent engineer to design a proper domestic water system with chlorination.

CHLORINATION STUDIED

At Okanagan Falls, commercial operators serving the public have been advised to provide a safe water supply while the need for chlorination of the irrigation-domestic system is under study by trustees of the district.

Only slight contamination is reported for the Hedley and Oliver domestic water systems.

Sewage problems are biggest at Pentiction and Kelowna, according to the report. At Pentiction, a 50 per cent overload on the present disposal plant is expected to be greatly reduced on installation of air diffusion plates in the clarifier units and planning is proceeding for a second sewage district with its own disposal plant.

Vernon Opposed To Ellison Field Project

VERNON — Kelowna proposals for Ellison field development will be opposed by Vernon Board of Trade in favor of a Vernon site.

The move is designed to bolster a previous recommendation to city council that the department of transport be requested to make an immediate survey of airport facilities in the Okanagan.

End object of the move is to expand Vernon's local industry.

The trade board went on record Wednesday night as commending council for obtaining option of the L and A Ranching Company Limited property, six miles north of Vernon, at a minimum price of \$500 per acre. It is proposed the site would serve as an airport for the North Okanagan.

The board has recommended DOT be requested to make an immediate survey and report on the most suitable available site for a major airport to serve present and future needs of the Okanagan, Shuswap, Revelstoke and Arrow Lakes area.

The Kelowna sewage treatment plant is undergoing rebuilding and modernization.

Milk situation is reported good in both the Kelowna and Pentiction areas.

BARBER SHOPS INSPECTED

Annual inspection of barber shops in the area has been completed. Two operators were requested to complete major alterations to their premises to meet proper standards. Some slight lowering of standards was also evident in four other premises

and operators were asked to correct this.

A great deal of Health Unit activity is centred on tent and trailer camps. Thirty-eight such camps are now complete or near completion in the Health Unit area. Need for standards or regulations is acute. Operators are encouraged to install modern water flush toilets but a few in unorganized areas have indicated they intend to provide only pit privies with a minimum of other facilities.

Microwave TV not In Broadcast Form

The owner of a television set in the southern interior of B.C. will not be able to pick up programs pouring through the new Trans-Canada microwave system, even if he lives alongside one of the towers.

In a statement aimed at clearing up confusion in regard to this matter, W. S. Pipes, vice-president and general manager of the British Columbia Telephone Company, said: "When the Trans-Canada microwave system is opened on July 1 and television programs are flowing from steel towers to steel towers across the country, it will not be possible for anyone to pick up these programs with a television receiving set by merely being close to one of the towers or near the route along which the microwaves are travelling.

"The television programs being carried on the microwaves are not in a form which can be picked up by a television set. To be received by a set they must be changed to another form and be broadcast.

"The Telephone Company provides only the facilities for carrying television programs from place to place along microwave channels and does not supply broadcasting facilities."

for anyone to pick up these programs with a television receiving set by merely being close to one of the towers or near the route along which the microwaves are travelling.

"The television programs being carried on the microwaves are not in a form which can be picked up by a television set. To be received by a set they must be changed to another form and be broadcast.

There's an **ATKINSON** standardized structural steel frame **MADE for YOUR** new building!

Burnaby Vocational School, Provincial Dept. of Public Works, ATKINSON Crane-bearing Building.

- Clear spans 30' to 180'
- Ample stocks for prompt delivery
- Accommodates any cladding material

Three types of ATKINSON steel frames are available as shown, in clear spans from 30' to 180' with side wall heights from 9'6" to 22'6" bays. ATKINSON steel frames are exceptionally adaptable—allow fast, economical erection—arenas, warehouses, manufacturing plants, etc.—wherever large, clear areas are needed.

Identity Cards a Good Idea

The idea of identity cards, proposed in the House of Commons a few days ago by Yvon Dupuis, has a great deal to recommend it.

Mr. Dupuis, Liberal member for St. Jean - Iberville - Napierville, was possibly a little harsh when he said the only opposition to his plan would come from "thieves, murderers, election impersonators, and other knaves." Many will oppose the idea of identity cards because they smack too much of police-state thinking. Others because they represent the ever growing army of restrictions already burdening us.

But, while we admit these inconveniences, we feel the advantages of

the identity card far outweigh them.

Time and trouble saved following accidents would more than make such cards worth while. In addition the advantages they would bring to bank clerks and others willing to cash cheques are obvious.

Whether the expense of so large an undertaking would justify the introduction of such cards it is difficult to say. It was done in war time, but we are often prepared to spend much more during a war than we would dream of doing during peace, however great the benefits such spending brings.

Let's Play it Safe

As B.C. residents take to the waters with the approach of summer, so reports of drownings commence. Almost from the first day of crowded beaches the sad stories of death by drowning come ticking over newspaper teletypes. And year after year those deaths are caused by the same reasons.

Good swimmers take cramps and are too far from shore to reach safety or call for help. Novices attempt too much, go beyond their depth and recovery. Toddlers wander away from guardians and are discovered too late. Experts and learners alike think the warnings about swimming after a heavy meal just so much nonsense and go to their deaths.

It is simple to predict the causes of death by drowning, but far more

difficult to cut down their incidence. It just does not make sense that year after year so many should die so carelessly.

By the simple expedience of refusing to take chances many could be saved.

No one should swim, or use the beaches so readily available throughout B.C., without first obtaining a basic knowledge of artificial respiration.

And one further point, in the event of trouble, attempts at resuscitation should be maintained even in the face of seeming hopelessness, unless a qualified physician is at hand to state otherwise.

The chief rule to remember, though, is to play it safe. That enjoyable swim in the lake could end with a funeral.

Most Potent Force in West

The most potent force in the armory of the western world today is not the hydrogen bomb, the guided missile, or the nuclear submarine. These awesome weapons, powerful though they be, are but the tools wielded by governments.

A greater force than any of these is the master, not the servant, of our highest officers of state. It is the power that shapes, not reflects, the decisions which alter the course of human destiny, the power that any leader of our world, be he never so great, defies at his peril. This tremendous force, which dominates the processes of our government and the administration of our public affairs at every level, is public opinion.

For all its great strength, which can topple the most entrenched government in a twinkling, public opinion is an indolent giant which often slumbers or gazes in sullen apathy. It can be cozened and hoodwinked by clever men, or maddened to senseless rage by demagogues, and is often heedless of the teachings of the patient past. Above all, to exert its giant's strength to best effect, public opinion needs the guidance of knowledge.

Yet there is a tide flowing in the affairs of men today which is slowly, inexorably flooding into every aspect of public administration, separating by an ever-increasing gulf the citizen from his government. The "expert" has come between him and much of his administration; information is "too complex for the layman" or "too confidential for general knowledge". The petty tyranny of a paternal bureaucracy hedges with a discreet privacy the day-to-day operations of government departments; the taxpayer today has little actual knowledge of how his tax

dollar is spent. Rule by committee, by cabinet, by group has, at all levels of government, tended to obscure from the public an awareness of the problems that confront it. Yet it is this increasingly ill-informed giant that is ultimately responsible for all that is transacted on its behalf, and will be called upon to make the decisions that change governments and alter the course of human destiny.

If western civilization is to survive in the perilous world of today, and if it is to preserve those freedoms of mind and spirit which are its noblest heritage, it is essential that the citizens in whom ultimate power reposes, be kept informed on matters affecting their welfare. It is here that newspapers fulfill their most vital role as the eyes and ears of the public. Through the medium of his newspaper the reader can keep informed of the manifold developments in the world around him; and keep a check on the stewardship of his elected representatives. Newspapers, dependent for their existence solely on the support of the general public, need care nothing for the politician's favor or frown, and are bound to no man's patronage. Through the medium of a free and independent press the public surveys the world with eyes free from the blinkers of official censorship or the distorting glass of private prejudice.

The public pays a price for this privilege. It must tolerate vulgar papers, incompetent papers, prejudiced papers, venal panderers to the lowest tastes. But the nuisance of this noisy minority is a trifling price to pay for that most precious of privileges, the right to know the truth.

Such a privilege is beyond price.

FAMOUS EPISODES IN AMERICAN HISTORY

INTERPRETING THE NEWS

De Gaulle May be Anti-NATO Leader

By ALAN HARVEY
Canadian Press Staff Writer

Panic fears that Gen. Charles de Gaulle's assumption of power in France might be the beginning of a move against the NATO military alliance seem based on flimsy evidence.

Some experienced observers are less pessimistic. They agree that de Gaulle has made bleak statements about NATO in the past and they concede he is an exponent of prickly nationalism, but they feel France needs NATO as much as NATO needs France.

NO HASTY MOVES

A lot will depend on how things go if and when de Gaulle takes over. His first efforts will undoubtedly be concentrated on

trying to solve the Algerian problem, so that hasty moves to withdraw from NATO are unlikely to rank high on his program.

He will certainly stress his view of French interest, always a fixed idea with de Gaulle, and try for a change of emphasis in NATO activities. He will want to worry less about Europe and more about North Africa, in line with his feeling that the colonial awakening is part of an Islamic crusade against the West, fed and fostered by communism.

STRENGTHENING POSSIBLE

There is a possibility that de Gaulle at the helm might strengthen rather than weaken NATO. In his authoritarian manner, the wartime hero has always acted circumspectly in constitu-

tional terms, and if his access to power is achieved bloodlessly it might ultimately result in a greater measure of political stability for France, with obvious benefits to the Western alliance.

A second fear—that de Gaulle might try on his own to make a deal with Russia—may have little substance. Shortly after the Second World War, he appeared to be attracted by the idea, but his aides are said to have given assurances on this score.

His reputation for anti-American feeling is probably exaggerated. It may arise from his fear that France, which he sees as still a great power, is becoming merely an American satellite, playing a subordinate role in NATO.

His vehement espousal of the French cause sometimes caused headaches to Winston Churchill and Franklin Roosevelt. Back in power, de Gaulle would undoubtedly be a difficult customer, but his role might be less unfriendly to NATO than some accounts suggest.

Preparing for 1960 Election

By JAMES K. NESBITT

VICTORIA — There's not much doing, politically speaking, around the Legislative Buildings these splendid days of early summer.

The politicians opposed to Mr. Bennett's government, who had hoped the Premier might panic and call a provincial general election this year, have pretty well made up their minds there won't be an election until 1960, as the Premier put himself out to announce, and repeat several times, the last week of the recent session.

That's a long way off, 1960, but, just the same, the enemies of Social Credit are girding their political loins as best they can—just in case!

Quite a number of private MLA's have been to the capital in recent days on business for their constituents.

Mr. Uphill of Fernie spent some days here, looking chipper as ever; he'll be 84 next month. He particularly hammered away, this visit, at Highways Minister Gagliardi to get a new bridge on a highway in Fernie riding. Mr. Gagliardi said he'd look after it all right, have no worries about that. Tom, but wise old Tom had Mr. Gagliardi put it in writing, and sign it. "God bless you, Phil," said Mr. Uphill. Mr. Uphill, you see, being wise after these many years as an MLA, 38 years, remarkable record, knows that a cabinet minister like a little soft soap now and then, same as anyone else.

CCF Mr. Gargrave of Mackenzie called at the Buildings, on the eve of taking off for University of California to enroll in summer courses in criminology and town planning, an odd mixture it sounds, but shows the versatility of young Mr. Gargrave's mind and interests. Mr. Gargrave has just completed two years of higher education at Victoria College, in the Autumn will go to UBC. He is, you see, on the long, hard road he hopes will lead him into the law.

Premier Bennett felt our history very close to him when, at a recent gathering of the B.C. Historical Association, of which he's a member, he sat with 18 of the descendants, into the sixth generation, of James Douglas, the founder of Victoria and the father of British Columbia.

Chetwynd, B.C., is the new name of Little France, B.C., a stop on the PGE extension into our wonderful Peace River country.

Chetwynd is named after Hon. Ralph Chetwynd, one of Mr. Bennett's cabinet ministers, who died

OTTAWA REPORT

Name Guessing In Parliament

By PATRICK NICHOLSON
Special Correspondent to the Herald

OTTAWA—A rustling of paper in the press gallery greets most members of parliament when they rise to speak now, as journalists vied hurriedly to the House of Commons seating plan and try to identify the speaker. This reflects the enormous change which has been brought about in Parliament by the two elections within the past year. The press gallery cannot remember a time when there were so many new faces.

Less than one-third of the present membership of the House was sitting here when the 22nd Parliament was dissolved 13 months ago. Only 82 members of that House have survived the two elections, so there are no less than 183 MPs here now who were unknown here last May.

In April of last year, there were 173 Liberal seats; only 37 of those Liberal MPs survive today. The CCF had 22 MPs last May, added three more in June, but their slashed strength today includes only four veterans. The Social Crediters and the Independents have been wiped out. On the other hand, 41 of the 51 Conservative MPs of a year ago were among the 208 Tories elected this Spring.

Among those who fell at the polls, the most remarkable politician was possibly Right Hon. Jimmy Gardiner, the Minister of Agriculture from 1935 to 1957. Ontario-born Jimmy was first elected to the Saskatchewan Legislature before the outbreak of World War I. From June 1914, he was continuously in politics and never lost an election until this March. For half of that 44 year career, he was a Federal Cabinet Minister. Before that, he had been Premier of Saskatchewan.

One of his colleagues on the Liberal benches a year ago was a remarkably talented citizen who showed himself to be a remarkably untalented politician in picking his party allegiance, although he set up a record by sitting in Parliament under three different banners. This was Ross Thatcher from Moose Jaw, who was barely out of diapers when Jimmy Gardiner first received a Cabinet appointment. As a small business man, he should have joined the Conservatives, whose free-enterprise philosophy most closely matched his own. With his ability and energy, he would be a Cabinet Minister today if he had listened to his conscience instead of to his friends.

Another missed face from the West is that of Carl Nickle, the Conservatives' expert on oil and gas. That Calgary oil-baron repeatedly made eloquent pleas in Parliament for Ottawa and Wash-

ington to get together and set up a grid pattern for the most effective and economical distribution of oil and gas throughout North America. But his arguments went unheeded. But now it is looking as if, after his retirement from politics, force of circumstances will promote his common-sense proposal.

FAMILIES IN POLITICS

The Liberal St. Laurent family, father and son, was wiped out by the verdict of the electors. But Ottawa now has a remarkable new Conservative family. Ralph Horner, from Blaine Lake, Sask., was appointed to the Senate a quarter of a century ago. This Spring he has been joined by two sons and a nephew, sitting up in a row as rookie MPs.

Pierre Sevigny, another new Conservative, has been chosen Deputy-Speaker of the House. He thus follows 42 years later in the steps of his distinguished father, who was later advanced to be Speaker, then Cabinet Minister, and then Chief Justice of Quebec.

Colonel Sevigny is one of the many MPs who could boast of a fine war record. Ex-career soldier George Peakes outshines all others with his unexcelled row of decorations: Victoria Cross, Military Cross, D.S.O., C.B. Among the purely wartime warriors of fame are Agriculture Minister Donald Gault, who won the George Medal; Trade Minister Gordon Churchill who won the D.S.O.; and Walter Dinsdale who won the Distinguished Flying Cross. Fisheries Minister Angus MacLean has the unusual distinction of belonging to the RAF Escaping Society; he was shot down over German-occupied Holland, and walked back to safety through France.

The MP with the most politics in his blood is Justice Minister Davie Fulton, from Kamloops. His father was a provincial Cabinet Minister, while his maternal grandfather and great-uncle were both Premiers of B.C.

WORDS OF THE WISE

The greatest and noblest in pleasure which men can have in this world is to discover new truths; and the next is to shake off old prejudices.

—(Frederick the Great).

by Evinrude

LET'S HAVE REAL FUN THIS SUMMER

Boating is for the entire family... new lightweight boats and trailers make highway "portaging" effortless and every weekend an adventure! Most pleasantly important of all... new, economical, easy-operating, easily portable EVINRUDE STOW-AWAY OUTBOARD MOTORS make everyone in the family car a "pilot" as soon as the water's edge is reached.

YOU AND YOUR FAMILY WILL BE "WEEKEND SKIPPERS"

Yes, you can become "Weekend Skippers" overnight with the purchase of an EVINRUDE STOW-AWAY model. Any member of the family can run the new 10 h.p. SPORTWIN now seven pounds lighter—the all-family FLEETWIN 7 1/2 h.p.—the famous FISHERMAN 5 1/2 h.p. and the peppy, popular LIGHTWIN 3 h.p. Every "STOW-AWAY" is power perfect and portable... tucks in your car as easily as your suitcase. See all eleven new EVINRUDES at your EVINRUDE dealer's today and ask him about the convenient payment plan... he's listed in your telephone book yellow pages... or write for colourful literature and free copy of "Handbook for Weekend Skippers".

EVINRUDE, first name in outboard motors, presents 4 of the 11 new EVINRUDES

All horsepower O.B.C. rated

3 h.p. LIGHTWIN \$185.00

5 1/2 h.p. FISHERMAN \$270.00

7 1/2 h.p. FLEETWIN \$310.00

THE NEW LIGHTER 10 h.p. SPORTWIN \$370.00

Zone prices slightly higher in some areas. Sales and service everywhere. MADE IN CANADA

Urges Canadian Campaign Aimed At Americans

MONTREAL (CP)—The Canadian Exporters' Association says it has proposed to the federal government a four-year campaign to bring about better understanding in the United States of Canada and Canadian problems.

The campaign would be conducted through news and advertising in influential United States publications.

Leo E. Ryan of Montreal, CEA president, said in a statement that the association's proposal has been sent to Trade Minister Churchill.

The proposal calls for expenditure of \$1,000,000 a year for the four years by the government and by industry combined. Use of both economic news and advertising would be sought where possible.

In a letter accompanying the proposal, Mr. Ryan said:

"Our association has been concerned with some of the official actions of our neighbors to the south and the apparent widespread lack of understanding of Canadian problems and the Canadian scene in general."

To counteract this situation, the CEA now urged "positive action on Canada's part."

The CEA proposal calls primarily for "an informative and educational program in influential U.S. publications, with supplementary distribution of material to business institutions, to members of the Congress and Senate, and speeches to associations and business groups."

WORDS OF THE WISE

Those who would treat politics and mortality apart will never understand the one or the other.

—(John Morley)

SUMMER SUIT
BY ALICE ALDEN

In the hands of a skilled dress designer, a summer suit of silk print can be a triumph of beauty and usefulness. A fine example is this town outfit from Elizabeth Arden. The smartly cut suit is of navy leaf print on white silk. The tailored overblouse is of navy silk with pearl buttons. The loose-fitting jacket, which uses the blouse collar, is caught at the top with one flat mother-of-pearl button.

PEACH FESTIVAL

The Lakeshore Pavilion Will be Setting for Colorful Queen's Ball

This city's attractive new Centennial Pavilion overlooking the beautiful Okanagan Lake will be the setting for the Queen's Ball planned as the opening social event at the community's annual gala summer celebrations, the Penticton Peach Festival, August 6 to 9. The dance committee of the sponsoring Women's Auxiliary, headed by Mrs. E. M. Gibbs, has chosen "Moonlight Serenade" as the theme for decorations and other features at the colorful public function.

Plans dealing with the dance and other auxiliary sponsored festival attractions were fully reviewed by members at the monthly meeting held in the Hotel Prince Charles with Mrs. W. L. Peaker in the chair.

The Queen's Ball will be preceded by the coronation pageant in the Peach Bowl at Queen's Park, and the pre-dance party being arranged this year by St. Ann's Catholic Women's League under the convenship of Mrs. Wilfred Gervin. The latter social function is held each year by various

women's groups in Penticton to honor local and visiting royalty and their escorts as part of their contribution to the community celebrations.

Mrs. Graham Kincaid is convening the auxiliary committee in charge of the crowning ceremonies for Queen-elect Maureen Pritchard and her princesses Sharon Vagg and Kirstine Tillberg.

Mr. and Mrs. George Lang, Lakeshore Drive, have offered their home and lovely garden as the setting for the Queen's Tea Thursday afternoon, August 7, when members of the women's auxiliary and the wives of the festival association executive en-

tertain for royalty and visiting dignitaries. Mrs. W. L. Betts is convening this social event.

Highlighting the auxiliary meeting was the presence of Miss Maureen Pritchard who modelled her afternoon ensemble and evening gown, selected by the wardrobe committee to be worn while making numerous public appearances at home and while visiting at other centres. The wardrobe committee, which is convened by Mrs. Maurice Finnelly, has also chosen ensembles for the festival princesses.

New members welcomed to the auxiliary were Miss Jean Jensen and Miss Margaret Hansen who were introduced by Mrs. Peaker.

Tempt Home Sewers Many Fabrics to

By ELEANOR ROSS

As summer casts its lovely shadow, the shortie coat and the little wrap are much in demand. The little wrap is more popular than ever. It comes in various fabrics and in a delightful array of colors. Home sewers, even beginners, will find it easy to make and a variety of patterns to choose from.

NEWEST MODEL

Probably the newest model—in name, anyway—is something called the "sea coat." It protects your shoulders from sunburn on the beach and serves as a cosy cover-up on a pleasantly chilly night. In white duck or white pique, with a big collar, it's very flattering.

The size of the collar, incidentally, is somewhat larger than the rest of the so-called "coat." But that's the chic of it!

In addition to this, your late spring and summer wardrobe can use one of the cocoon coats that are currently cited for their fashion-rightness. That is, of course, if you'd enjoy looking like a cocoon! However, the cocoon line is pretty, and it does look new.

This season the fashions seemed to be designed to obliterate as much as possible the natural lines of a woman's figure. After all our efforts to achieve and keep a nice silhouette, we wonder how long this hide-the-figure craze is going to last.

At any rate, for women who like to sew, there are wonderful fabrics this season—washable fabrics that seem endless in their variety. There are lively tweeds, corduroy, fur effects in pale colors, beautiful cottons.

WHITENED TONES
Incidentally, the so-called "whitened" tones are especially good, tones such as a beige with a whitened cast that is ever so becoming to most types. The linen fabrics, plain or embroidered, are beautiful, too.

Just plain washing is all any of these good-looking materials need to keep looking their best.

WORDS OF THE WISE

The greatest pleasure I know is to do a good act by stealth, and to have it found out by accident.

—(Charles Lamb).

DIPLOMA IN NURSING

Miss Beverley Boulton was among the 1958 class of graduates receiving diplomas and pins from the School of Nursing at St. Paul's Hospital, Vancouver. A graduate of the Kootenai High School, the young nurse is the daughter of Mr. and Mrs. Alfred Boulton of Caston.

AROUND TOWN

UCT Auxiliary Plans June Potluck Supper

The Ladies' Auxiliary to the United Commercial Travelers discussed plans for two June events at their May meeting held at the home of Mrs. Fred Moss with president Mrs. Ron Westad in the chair.

Arrangements were made for the annual picnic at Naramata June 22 and for a potluck supper to be held at the Incola Hotel prior to the regular LA meeting June 21. Mrs. Paul Pellicano was named convener for the latter club function.

Mrs. Moss, local delegate of the auxiliary, will accompany her husband who will also attend the annual session of the Grand Council of Oregon, Washington and British Columbia being held this week at Tacoma, Washington.

Mrs. Cliff Wanless, who will leave shortly to join Mr. Wanless at Regina where he has been transferred, was the recipient of a silver spoon as a farewell gift from the auxiliary.

Peach Festival royally-elect Queen Val-Vedette Maureen Pritchard and princesses Kristine Tillberg and Sharon Vagg accompanied by Mr. and Mrs. Ken Almond left this morning to attend the three-day Colorama Festival, a lighting display, at Coulee Dam. They will be guests of the Grand Coulee Lions Club, sponsors for the celebrations, when a switch will be turned flooding the dam's spillway with a magnificent display of vari-colored lights. They will participate in numerous events planned for the occasion, a parade Saturday morning, and a dance following the official ceremonies this evening at the dam.

The Diamond Jubilee Chapter, Imperial Order Daughters of the Empire, will hold the annual picnic meeting at the Dominion Experimental Station, Summerland, Tuesday afternoon. Members planning to attend will meet at the Hudson's Bay Parking lot located back of the Three Gables Hotel where cars will assemble

at 12:30 p.m. Picnic arrangements are under the supervision of Mrs. C. C. Sworder.

C. A. Wanless, who has been associated with the Insulation Industries here for the past three years, is leaving Sunday for Regina where he has received a business transfer. Mrs. Wanless and family will join him at the close of the school term!

Mr. and Mrs. J. T. Young and daughters, the Misses Jackie and Pat Young, have taken up residence in their home at Trout Creek Point, Summerland.

WIFE PRESERVERS

Extra space can be converted to storage drawers by a do-it-yourselfer. In addition to regular wood drawers, there are also available non-sag plastic drawers ready to be mounted in steel frames of various sizes.

Handclap Outburst Disturbs Bribery Trial

By H. L. JONES
Canadian Press Staff Writer

VANCOUVER (CP) — A small man in a blue suit with a briefcase in his hand takes the assize court witness box today for the seventh time in the bribery-conspiracy trial involving a former provincial minister, three other persons and four companies.

Charles Eversfield, 46-year-old accountant who now lives in Los Angeles, will again be the defence target in cross-examination.

The battery of six defence lawyers are seeking to break down his testimony—backed by documents—that monies were split between former lands and forests minister Robert Sommers, Charles Schultz and H. W. Gray through the offices of Pacific Coast Services Limited, where

Eversfield was formerly employed.

Documents Eversfield took from the files of the log broker, age firm when he left in 1955 now form the basis of a 38-count Crown indictment. It charges two counts of conspiracy and 36 of bribery in the obtaining of government licences to cut timber on Crown land while Sommers was in office.

Sommers resigned his portfolio in 1956 but still is a member of the legislature. Other defendants besides Sommers, H. W. Gray and Schultz are John Gray, the C. D. Schultz Company Limited, Pacific Coast Services, Evergreen Lumber Sales and B.C. Forest Products. All have pleaded not guilty.

Thursday an outburst of hand clapping in the near-full public galleries brought from Mr. Justice J. O. Wilson a threat to clear the court.

Eversfield was under cross-examination by defence counsel J. R. Nicholson who said Eversfield had stated he postponed moving to the U.S. in 1952 because he "needed further capital." The witness questioned the statement.

DENIES SUGGESTION

Then when Nicholson changed the phrasing to "you wished further capital" Eversfield said "that is correct."

Apparently the fine distinction

was caught by the spectators and clapping broke out, the first such outburst since the trial began 17 days ago. Mr. Justice Wilson, frowning, said: "If there is any more of that this room will be cleared."

Thursday Eversfield denied Nicholson's suggestion that "blackmail" was his motive for taking documents from Pacific files. He also said that when Pacific officials became alarmed about possible investigation of earlier deals, it was decided that H. W. Gray would have Sommers sign back-dated promissory notes to cover up. But he denied that he himself had suggested this course.

"Adapt your methods to meet the needs" is an axiom with the Boy Scouts that was admirably demonstrated recently when a combined curling bonspiel and Scout Leadership training course was held at Rouyn-Noranda, Quebec. Some alternated sessions of curling with leadership training instruction periods under the direction of members of the Quebec Scout Council's Training Team. Originator of the plan was Scout Field Commissioner James Riddell of Quebec. A banquet, attended by Scouters and their families, marked the conclusion of the successful experiment.

SWEDEN NAME TEAM

STOCKHOLM (AP)—The Swedish Lawn Tennis Assn., Saturday named a four-man Davis Cup team to meet France in the European zone quarter finals at Paris June 6-8.

The team consists of seven Davidson, Ulf Schmidt, Percy Rosenberg and Staffan Stenborg. Jan Eric Lundquist, who was on the team in earlier rounds, has been dropped because of his weak performances this season.

IN THE CLASSROOM TODAY

Geography Ignored

EDMONTON (CP) — Elementary geography in Canadian schools has suffered in the last 30 years from "neglect leading almost to stagnation," says Dr. Trevor Lloyd.

The noted geographer joins those "who decry the inability of modern youth to pinpoint on the map this place or that with the supposed speed and accuracy of their elders."

Dr. Lloyd, chairman of the geography department at New Hampshire's Dartmouth College, gave his presidential address to the Canadian Association of Geographers Thursday night.

LACK OF TEACHERS

A former elementary school teacher, he said geography's "neglect in the classroom that is generally recognized has been due to an almost total lack of qualified teachers. To make matters worse, there were for many years no modern textbooks prepared especially for use in Canadian schools by authors who were themselves geography teachers."

Adding to the problem, Dr. Lloyd said, is the fact that curriculum planners have left elementary geography to become "lost" in the newly-created subject, social studies. Alberta has become "one of the main temples

of this heresy," he added. "It never seemed to me that sound educational theory required one to spray young minds with a random sample of history, geography, economics, sociology, and current events made up largely of newspaper chit-chat, the whole spiced with a warm glow of civic virtue."

DOESN'T WORK

He said this treatment doesn't work—and never has worked. In fact, as originally prescribed, it has scarcely been tried.

"What has happened is that history of a sort has been taught, interrupted by occasional dabs of the kind of geography that is a

mixture of place names, intimate tales of what Bongo Bongo does with his spare time in the Congo, and the techniques for achieving the impossible culinary feat of making a convincing relief map of Africa out of flour and salt.

"It is now almost universally agreed that the children have in fact learned little good history, and less geography."

Dr. Lloyd's address prepared for the 50 geographers meeting here for their Saturday symposium on the place of geography in Canadian schools. The subject's role in Ontario, Alberta and British Columbia schools will be specially considered.

BOONE GRADUATES
NEW YORK (AP) — Singer Pat Boone got a big hand, enthusiastically, from Columbia University Thursday. The university said that when Boone receives his bachelor of science degree from the school of general studies Tuesday, he will be graduating magna cum laude. Boone ranked in the upper five per cent of his class with a four-year "A" average.

HAS NEAR MISS
SAN FRANCISCO (AP) — A United Airlines DC-7 carrying Senator William F. Knowland of California among 7 passengers had a near miss with an all force B-47 near Salina, Kansas, Thursday. UAL pilot W. Wolfe said the bomber crossed in front of the airliner within 500 to 1,000 feet.

BEN-GURION LAUDS WINNIE
JALFA, Israel (AP) — Israeli Prime Minister David Ben-Gurion Thursday lauded Sir Winston Churchill as "the greatest fighter for freedom in our generation." Sarah Churchill, actress daughter of the British statesman, represented her father at a ceremony here opening the Winston Churchill Auditorium at Technion City, Israel's new technological institute on Mount Carmel.

THE BLUE RIDGE MOTEL contains two sections. The south section shown above is 223 feet long and the north section is of equal length. This impressive Auto Court was constructed by Mr. and

Mrs. A. Flathen who have had many years of experience in motel operation in Calgary and have now come to Penticton to again cater to the travelling public.

Leaders Trade Blows On Municipal Finances

By ALAN DONNELLY
Canadian Press Staff Writer
OTTAWA (CP) — Prime Minister Diefenbaker and Opposition Leader Pearson, two election-time sluggers, traded a few sparring-matches Thursday night about what should be done—or hasn't been done—to help the financial ills of Canada's municipalities.

The end result, thanks to the whopping Progressive Conserva-

tive majority in the Commons, was a vote of 167 to 37 defeating a CCF non-confidence motion that demanded federal action this session to ease the "very heavy financial burden" of municipalities.

Mr. Pearson asked point-blank for an indication of when the federal-provincial conference will be resumed.

JUST NORMAL PRACTICE
The prime minister reiterated that no indication could be given yet. At another point he said the matter will "receive consideration in due course."

Mr. Diefenbaker said he will call an informal conference with municipalities where they could present their case to the government and the people. Earlier, Mr. Pearson belittled that conference as being only normal practice.

Design for Nuclear Plant Completed

By JOHN E. BIRD
Canadian Press Staff Writer
CHALK RIVER, Ont. (CP) — The basic design of Canada's first full-scale nuclear power plant has been completed by a nine-man team of engineers from private industry.

The plant will cost about \$60,000,000 and generate some 200,000 kilowatts of electricity, equivalent to the output of a large coal-burning electric station.

GM Contract Expires With No Agreement

DETROIT (AP) — General Motors' contract with the United Auto Workers expired today as the company rejected a last-minute bid by the union to work out a temporary 30-day agreement covering 300,000 GM workers in the United States.

The UAW then centred its attention on Ford and Chrysler in hopes of working out new agreements with both companies before current three-year contracts run out Sunday midnight.

GM, like Ford and Chrysler, stood steadfast through weeks of negotiations on its offer to extend the current agreement for two years.

UAW President Walter P. Reuther, weary after a bargaining session that ran all day and up to Thursday midnight—the expiration time—obviously was unhappy as he disclosed that for the first time in 21 years UAW members at GM would work without a union contract.

Both the union and the company have issued instructions on how to operate without a contract. The terms were set Wednesday by GM. "They generally follow the contract that expired last night—except that the company will quit collecting dues for the union and UAW membership will not be a good condition of employment at GM."

The union said it plans to put men on GM plant gates to check membership cards of employees in an effort to maintain an all-union shop.

UPHILL FIGHT
Reuther admittedly faced an uphill fight to achieve his goals for auto workers in this recession year. He wants wage increases, improved pension benefits and a share of profits from firms financially able to pay them.

GM earlier claimed that the UAW demands would add 73 cents to the present \$2.40 hourly wage for American GM workers. It changed this figure to 48 cents an hour after the union revised some demands.

GM said extension of the old agreement would give workers a nine-cent hourly raise this year and seven cents in 1959.

Reuther said GM had not yielded an inch on a single point since Harlow Curtice, GM president, outlined the company plan last August.

INDUSTRIAL ENGINEERS
The plant was designed by members of the nuclear power branch of the company, made up of engineers from private industry. The branch is headed by H. A. Smith, engineering design specialist with Ontario Hydro.

Atomic Energy of Canada scientists worked closely with the team on aspects of the study related to nuclear physics.

The proposed plant is known by the code name Candu—standing for Canadian deuterium-uranium. The name was selected because the plant will use natural uranium as a fuel and deuterium, or heavy water, as a coolant.

It is not expected to produce electricity at an economic cost but may do so if present technology makes major advances by the time it is ready to go into operation, sometime between 1968 and 1970.

Candu most likely will be built somewhere in Southern Ontario, Canada's most power-hungry area.

ON TARIO NOT SATISFIED
Paul Martin, former Liberal health minister, reminded the prime minister of some unfinished business: federal-provincial fiscal relations.

He did so by interjecting as Mr. Diefenbaker listed extra tax-sharing payments granted the provinces following December's federal-provincial conference.

Ontario, the prime minister said, received \$22,000,000 more than it would have received from tax-sharing agreements signed under the former Liberal government.

Mr. Martin asked whether Mr. Diefenbaker was suggesting Ontario feels its demands have been

Premier Duplessis Faces Damage Suit

OTTAWA (CP) — Frank Roncarelli's damage suit against Premier Duplessis of Quebec is scheduled to come before the Supreme Court of Canada Monday.

The former Montreal restaurateur sued Mr. Duplessis personally for \$118,741, alleging the premier ordered the Quebec liquor commission to suspend his liquor licence.

Mr. Roncarelli, an adherent of the Jehovah's Witnesses, was awarded \$8,123 by the Quebec Superior Court but the Quebec Court of Appeal quashed the judgment, on an appeal by Mr. Duplessis.

ASKS \$80,000
Mr. Roncarelli, employed by the St. Lawrence Seaway Authority in Montreal, now is asking for \$80,000 in damages.

Suspension of his licence Dec. 4, 1946, came at about the peak of controversy and legal battles between the Jehovah's Witnesses and provincial authorities.

Mr. Roncarelli had posted bond for some 390 members of the sect during a two-year period. The Witnesses involved had been arrested on such minor charges as distributing pamphlets without a city permit.

In his suit for damages, Mr. Roncarelli alleges that Mr. Duplessis ordered the then chairman of the Quebec liquor commission, Edouard Archambault, to cancel his liquor permit.

SOUGHT "APPROVAL"
However, Mr. Archambault testified at Mr. Duplessis' original hearing that he already had decided on his own to cancel the permit and had only asked the premier's "approval" to carry out his decision.

Mr. Roncarelli introduced evidence in newspaper clippings quoting Mr. Duplessis as saying at a press conference: "It was I, as attorney-general of the province charged with the protection of good order, who gave the order to annul Frank Roncarelli's permit."

Mr. Duplessis admitted at the hearing that he made the statement, but argued that he was not liable to damages because the order was given by the attorney-general, not by Mr. Duplessis as an individual.

Russia Builds Up Strategic Air Power

LONDON (AP) — Russia's strategic air command soon "will be capable of mounting a major offensive with nuclear weapons of all types," the Royal Air Force Flying Review says.

The semi-official magazine says the Soviet bombing force still is smaller than the United States SAC "but is being increased in strength and potency and is likely to provide the backbone of Russia's offensive power."

The Flying Review says "next year may see parity reached with the (United States) Strategic Air Command."

PETER TOMLIN'S

SPORTS DIARY

Despite high water and considerable trash floating around, Shuswap Lake continues to be one of the best fishing spots in the B.C. Interior.

Lloyd York of Shuswap, Narrows Lodge reports that the fishing is excellent there. Plenty of fish in the 5-8 pound range are being taken out. Five in the over-10 lb. bracket were caught this week with two of them over 20 lbs.

Evening fishing is producing the best results. Midday is slow, the mornings fair and best catches are being made from 5-9 p.m. Momma Squid is still the killer and a silver and ruby spoon has been getting good results.

The Fishing Calendar at Pye and Hillyard's Sportland shows that fishing is good on Okanagan Lake. Best results are obtained with a Canadian Wiggler, Knobby Wobbler and a Gibbs-Stewart. Fish Lake is reported to be only fair. Orange and black flatfish, green or brown sedge and black flies are getting some results, but fishing on the whole, is a little disappointing.

Allendale is also fair and Monroe Lake has been good with orange and black flatfish, green and brown sedge and black flies again proving most successful.

Things should be picking up by now at Bear Lake, but Twin Lakes is reported to be a little off.

The big one are really biting in the Merritt district. Orange and black flatfish are getting lots of five pounders out of Peter Hope Lake. To get to this one, though, you need a light delivery or reasonable facsimile.

Osprey Lake is reported fair, while Ludwick and Thalia are both very good with about 2½ lbs. reported to be tops. The road is good into Ludwick, but a little rough to Thalia.

Courtenay and Nicola Lakes have been very good lately. Fish ranging up to 14 inches and 20 lbs. are being taken quite regularly in both lakes.

Conkle Lake in the Bridesville district is said to be good with a willow leaf trail producing the best result.

For those who want to travel a little further, things are really booming in the Kamloops area. Pinawa and Pillar Lakes, near Falkland, are reported excellent. Flatfish seem to be the best bet here.

Savona and Kamloops Lakes are both reported good and Monte Lake has been exceptionally good. It appears that anglers are in for a pretty good weekend wherever they go.

A few helpful hints — backlashes can ruin a perfectly good day. Play it safe by carrying an extra reel.

Bushy hackles don't indicate a good dry fly. In most patterns, sparse hackling is far more effective.

Don't use a fine leader for too long a time. It may break at a crucial moment. Nylon leaders give no warning of their condition, and they cost so little that it pays to replace them frequently.

A fish stringer with all the hooks open is useful for retrieving a rod and reel dropped overboard. Attach a line to it and drag over the spot. The open hooks will do the rest for you.

Field Limited for Cal Relays Mile

MODESTO, Calif. (AP) — A lesson learned when Britain's Derek Ibbotson ran here last year could help him break Australia's Herb Elliott a world record for the mile run Saturday night at the California Relays.

Ibbotson assaulted John Landy's world record of 3:58 in the relays here last year, but a bulky field of 19 required lots of maneuvering and he won in a relatively slow 4:06.4.

Returning to England, Ibbotson ran 3:57.2 July 19, that time was caught in a technicality over whether it should be allowed since there was a pacer in the race.

At Los Angeles May 16, the 20-year-old Elliott ran 3:58.8. But again up came the pacer question and his time may not be officially allowed.

SMALL, SELECT FIELD
In arranging Saturday night's run, relays director Tom Moore recalled the words of Ibbotson in 1957: "There were just too many in the race. I had to trot around them and there was a lot of milling around."

The field will be limited to avoid the jostling which would knock out any chance for Elliott to turn in a record performance over the hard, clay track. There will be no pacer. Every precaution is being made to avoid any adverse technicalities.

Facing Elliott will be a selected field including Laszlo Tabori, Hungarian refugee who has eclipsed four minutes; Joe Villalobos of the University of Texas; Valeria Mugosa from New York University; Burt Crim, former Maryland University star, and

perhaps Dr. Stefan Lewandowski of Poland.

Dr. Lewandowski has not arrived and was reported having visa trouble in Europe.

The open 100-yard dash features Olympic sprint champion Bobby Morrow of Abilene Christian College in Texas against Ray Norton of San Jose State, the latest speedster to equal the world record of 9.3 seconds.

SOX, MACS TRY AGAIN TONIGHT

Baseball fans are reminded of the baseball game at King's Park tonight between the Penitents Red Sox and the Sumnerland Macs.

The two clubs will try again after being rained out Wednesday night. Don Dell will be on the mound for the local nine and Chapman will hurl for the Macs. Game time is 8 o'clock under the lights.

Garcia Given Release By Cleveland

CLEVELAND (AP)—Cleveland Indians Thursday night released pitcher Mike Garcia, who will need surgery to repair a slipped disc in his back, and called up from San Diego 21-year-old Gary Bell, pitching sensation of the Pacific Coast League this season.

Bell has won six games and lost two by 1-0 and 2-0 decisions, finishing in six of nine games he started.

Phoenix Takes Top Spot

By WARD SIMS
Associated Press Staff Writer

Phoenix Giants moved into the Pacific Coast League lead last night as the circuit got its second grand slam home run in as many nights.

Bill Hall smashed out the big blow last night in the sixth inning at Salt Lake City as the Bees clubbed Spokane Indians 6-4.

The Giants gave Portland Beavers an 8-1 lacing and took a full game lead over the Vancouver Mounties, who dropped their second straight game to Sacramento Solons, 5-4.

Seattle and San Diego had the night off.

Hall's smash ended scoring for the Bees. Dick Stuart, Salt Lake City's heavy woodsman, pounded out his 19th homer of the season in the fourth inning with one mate aboard to account for the Bees' other two runs.

Tony Roig homered for Spokane, but the Indians couldn't pick up enough steam to keep Salt Lake City's George Perez from getting his first victory in two decisions. Bob Milliken took the loss.

The Solons won their game in the last of the eighth inning, when they splurged for three runs on three doubles off Vancouver starter Mel Held and another off reliever Bea Wade. Harry Bright, Jim Westlake, Nippy Jones and Bob Roselli got the two-baggers.

The Mounties got single runs in the second and eighth and two in the fifth, the latter counters coming on Charley White's double, two singles and two walks.

Phoenix' victory came on a three-hit pitching job by Don Zanni, who fanned six and walked four in running his record to 6-3. The Giants gave him a three-run lead in the first inning and from then on it was clear sailing for the smooth-working right-hander.

The Giants stretched their lead to 8-0 before Portland scratched Zanni's bid for a shutout with one run in the eighth. The counter came in on an infield out. Philippe Alou got a two-run homer for the Giants in the second.

Webb, Beecham Meet In TV Fight Tonight

MIAMI BEACH, Fla. (AP)—Spider Webb and Jim Beecham, two rather learned boxers with impressive ring records, meet tonight in a 10-round middleweight scrap.

Webb, ranked sixth, was expected to weigh in at 159, five pounds heavier than Beecham. The fight will be televised by NBC starting at 8 p.m. MDT.

The 26-year-old Webb has lost only three of 29 professional bouts. He knocked out 14 opponents.

Beecham, 34, has won 23 times, lost five and drawn once in 29 pro bouts. Beecham has taught himself a fund of lore ranging from poetry to psychology in off-hours reading.

Tommy Jacobs Takes Lead in Western Open

DETROIT (AP)—Eight hours a day on the practice tee and ditching "that old do-or-die attitude" is starting to pay off for Tommy Jacobs.

Jacobs, 23, on the professional circuit less than a year, had a two-stroke lead over the rest of the field today as 146 golfers entered the second round of the 55th Western open tournament.

Jacobs' 64 over the gentle but narrow Red Run course Thursday equalled the course record held by four others. Forty-five players mastered the 36-36-72 par for the 6,705-yard course.

GOLDEN GARB BARRED

Notice the gleam from the panties worn by Karol Fageros, of Miami, Fla., as she makes a return in her first round game of the French tennis championship in Paris. The gleam comes from her gold lame panties, edged in black lace. The all-England Tennis club, which controls the Wimbledon tournament, ruled out such glamor. Players must wear white. Miss Fageros is an entry in the Wimbledon tournament.

Sports

GIANTS, YANKS LEAD

Doubleheader Day In Major Leagues

By THE ASSOCIATED PRESS

Memorial Day, the first quarter pole in the major league pennant races, dawned with the San Francisco Giants needing no better than a split at St. Louis to retain the National League lead, and a chance for a wholesale shakeup in the American League scramble for second place.

The Giants, two games ahead of the world champion Milwaukee Braves, picked Ruben Gomez (5-3) and Mike McCormick (4-0) for their doubleheader against Wilmer (Vinegar Bend) Mizell (2-5) and Jim Brosnan (4-4) of the seventh-place Cardinals.

The Braves, with right-hander Bob Buhl left at home to nurse his sore shoulder, were at Pittsburgh with Lew Burdette (4-3) and Bob Rush (4-2) doing the pitching. The third-place Pirates, five games behind the Giants, named Vern Law (5-3) and rookie Curt Raydon (0-1).

7½-GAME LEAD
In the American League, first-place New York took an unprecedented May 30 lead of 7½ games into a pair against last-place Washington at Yankee Stadium. Bobby Shantz (4-0) and Whitey Ford (5-2), both southpaws, faced the Senators' Pete Ramos (2-4) and Russ Kemmerer (1-3).

The Kansas City Athletics, riding a four-game streak, are at home for a morning-afternoon doubleheader against third-place Cleveland. The Indians trail the As by a game. They picked Dick Tomaneck (1-1) and Ray Narleski (5-4) in a bid for second place against Kansas City's Ralph Terry (2-3) and comeback guy Ned Garver (6-1).

Detroit put a five-game winning streak and a crack at fourth place on the line against the Chicago White Sox. The Tigers, trailing the fifth place White Sox by a half-game and fourth place Boston by one, sent Jim Bunning (2-4) and either Hank Aguirre

(1-0) or Tom Morgan (0-3) against Billy Pierce (2-4) and Dick Donovan (2-5).

The Red Sox played two at Baltimore. The other NL games had Los Angeles at Chicago for two, and Cincinnati at Philadelphia in the day's lone single game.

No games were scheduled Thursday in either league.

Pat O'Connor Killed in 11-Car Pile up in '500'

INDIANAPOLIS — Tragedy reared its ugly head very early in the Memorial Day 500-mile race at the Indianapolis motor speedway today.

Pat O'Connor, young racing protege of the late Wilbur Shaw, was killed in a thunderous 11-car crash on a turn in the first lap of the 500-mile annual classic.

The handsome 25-year-old Irishman from North Vernon, Ind., an early leader in the race the last two years, met death with the 35 starting cars running in a bunch.

Dick Rathmann of Miami charged into the lead on the first turn, then lost control on the third (northeast) corner of the 2½-mile brick-and-asphalt track. As he spun, the other cars piled up.

Cars in the smashup included those of Ed Ellsland, Bob Veith, Paul Russo, Paul Goldsmith, Al Biesch, Len Sutton, Mike Magill, Shorty Templeman and Jerry Unser.

Unser suffered a dislocated right shoulder. Russo was able to get back on the track after repairs.

Templeman also got back into the race.

Unser, a first-time starter, went over the wall in the first-lap crash. O'Connor was a test driver for the Firestone Tire and Rubber Company when he was not racing. He was wrecked in the first of his five Memorial Day starts, in 1954, when a freak storm hit only the southeast corner of the track, where he was running. He finished eighth in both 1955 and 1957 but was stopped in 1956 by a split radiator.

25-MINUTE DELAY
The green light went back on

for racing speed at 12:30 p.m. EDT—25 minutes after the crash. Favorite Jimmy Bryan was leading, followed by Eddie Sachs, Tony Bettenhausen, Johnny Boyd and Billy Garrett.

Sachs took the lead away from Bryan soon after racing was resumed but shortly lost it to old-timer Bettenhausen.

Later, Chuck Weyant, 35, of Springfield, Ill., hit the wall at the northwest turn and spun into the infield but escaped serious injury.

The death of O'Connor was the first in the race proper since Bill Vukovich was killed in a four-car pileup in 1935 while trying to win his third straight Memorial Day victory.

Today's smashup involved more cars than any other in 41 previous Memorial Day classics.

O'Connor's wife, Analice, and his mother were waiting at the track hospital entrance when he was brought in, covered with a blanket. Both were in a state of shock.

O'Connor's face was badly burned, and track doctors withheld official confirmation of his death 15 minutes for positive identification.

Give Dad Something To Wear FATHER'S DAY JUNE 15

FATHERS DAY CONTEST YOU MAY WIN DAD A \$100 WARDROBE

Just walk into any of the Men's Wear Stores listed below and fill out a coupon. Lucky person will be chosen in a draw on Tues., June 17. Everyone has an equal chance of winning. NO OBLIGATION TO BUY. Fill your coupon out now.

Nelson Hurls Legion to 10-0 Triumph

Brian Nelson hurred the first shutout in Little League play this season in leading his Legion teammates to a 10-0 conquest of Interior Warm Air last night.

He was completely untouchable as he recorded the league's first white-wash job in play this year. Phillip Stoochnoff was the losing pitcher.

The Little League pool's first game was played last night. Eddie Hays pitched Chevrolet to a win over Ford. Losing pitcher was Johnny Stocks.

There will be no action in Little League tonight, but Lions and Klonsmen will meet Saturday evening at 6:30.

Two important dates for Little League are coming up in June. Saturday, June 14, is Little League Foundation Day and on June 20, a graduation banquet will be held in the Prince Charles Hotel for players who moved up from Little League to Babe Ruth League this season.

Attendance continues to be a problem for the league. Fans are just not supporting the team at the gate. Unless fan support improves, it may become financially impossible for the league to operate.

"Let's go fishing this weekend!"

WITH A NEW TAKE-ALONG

Johnson SEA-HORSE

Every Sea-horse "Take-along" is packed with famous, dependable Johnson power—portable as your suit case. Put one in the car trunk and it's always ready to power you out where the big ones lurk as soon as you reach water's edge. The quick starting, easy operating Johnson "Take-alongs" are the world's finest portable motors. They slow troll with never a stall. See them and all eleven new Sea-horses from 3 to 30 h.p. Ask your Johnson dealer about convenient terms...he's listed in your telephone book yellow pages.

Oscar Sobers Madcap Comic

By BOB THOMAS

HOLLYWOOD (AP) — What has happened to Red Buttons since he won his Oscar?

"Many wonderful things," said Red. "It's not just the offers that make you feel good, though they are nice, too. The real thrill is the change in attitude that people have toward you, especially in your own profession. You know that they believe you have worked hard to achieve some success. The big thing is not the Oscar itself, but the fact that so many people were pulling for you to be a winner."

IN SAYONARA

Red was a winner for his supporting role in Sayonara. The achievement has sobered the one-

SALLY'S SALLIES

"My darling's just nuts about gardening and fishing."

time madcap comic of television. "I feel the responsibility to the people who had faith in me. I want to improve as an actor, and I'm working hard in that direction."

When he is in New York he attends classes twice weekly with other aspiring actors. "It's really inspiring. Sitting next to me might be an actor whose total earnings last year were \$900. Another might have earned \$3,500. We're all working toward a common goal — improving ourselves as actors."

Does this mean he might even tackle Shakespeare? "I'd like to do some Shakespeare," he said. "I played Bottom in Midsummer Night's Dream two summers ago, and it was a great experience. It is kinda tough to get on to that Elizabethan dialogue, but once it starts flowing you feel a real satisfaction."

NOT LONG-HAIR

Don't worry — Red isn't going long-hair on us. To prove that he can still make with the quips. He is appearing on the Dinah Shore TV show Sunday night.

What next? He said he has been reading movie scripts, but has found nothing to intrigue him yet. This summer he'll play a number of night club dates. I asked about chances he would do a TV series again, in view of his new success. "No series next season," Red declared. "I'll just do some guest shots."

CONTRACT BRIDGE

By B. Joy Becker

(Top Record Holder in Masters' Individual Championship Play)

You are South, both sides vulnerable. The bidding has been:

West North East South

1-H Dble. Pass

What would you now bid with each of the following five hands?

1. S-Q852 H- D-AQ76 C-K9543

2. S-52 H-QJ43 D-73 C-87642

3. S-A762 H-64 D-A5 C-QJ843

4. S-J8 H-Q876 D-KJ52 C-Q63

5. S-953 H-AJ82 D-QJ7 C-KJ5

1. Two hearts. It should be assumed that when partner makes an informative double he has at least an opening bid. We can therefore treat this hand as though partner had opened the bidding in one of our suits; in which case we would presumably drive the hand to a game contract. Eleven high card points plus a good fit presumably will make a game opposite an opening bid.

Rather than attempt to guess which is North's best suit, we shift the choice of the trump suit back to partner by cuebidding the opponent's suit. Whichever suit he selects, we bid a game in at the next opportunity. It is far better to alert partner to the game-going possibilities by bidding two hearts than it is to jump-shift in one of our three suits to show a strong hand.

2. Two clubs. A simple suit response to an informative double promises no values. Partner can point to game in notrump.

manded us to bid by doubling, and our reply shows no more than length in the suit responded with. If anything goes wrong as a result of obeying partner's edict, the responsibility is his, not ours.

3. Three clubs. In responding to an informative double, care must be taken to distinguish between a forced response with a poor hand and a hand with pronounced values. If we were to respond in this hand with two clubs, as we did in the preceding hand, North would have no way of knowing when we were bidding with a poor hand and when we were bidding with a good hand. The clubs are named first, the plan being to show the spades later so that North will know the club suit is long.

4. One notrump. This response to a double generally shows about 7 to 9 points as well as some strength in the opponent's suit. A two diamond response might be misread as showing no values. The notrump response is more encouraging.

5. Two notrump. Game possibilities are strongly indicated, with 12 points facing the bid equivalent of an opening bid. The absence of a spade stopper should be no deterrent. Partner must be assumed to have spade strength. With balanced distribution, and hearts well stopped, all signs point to game in notrump.

Tomorrow: Declarer rescues hopeless contract.

"SOME FUN"

Gov't Officials to Meet Federation

OTTAWA (CP) — Prime Minister Diefenbaker said Thursday the government has agreed to an informal conference with representatives of the Canadian Federation of Mayors and Municipalities. He didn't say when it will be.

He was questioned in the Commons by J. W. Pickersill (L-Bonavista - Twillingate), Paul Martin (L-Essex East) and H. W. Herridge (CCF-Kootenay West).

Mr. Martin asked whether the government would soon call another federal-provincial fiscal conference as he said it had agreed to meet with the muni-

cipalities. Mr. Diefenbaker said Mr. Martin misunderstood him. He had said the government would meet with federation representatives. He had not said it was going to confer with municipalities.

Mr. Pickersill asked in what way this meeting would be different from the annual meetings in the past between federal cabinet ministers and federation delegates.

Mr. Diefenbaker said the federation doesn't share Mr. Pickersill's attitude. Its officials were very pleased that "for once" the federal government agreed to meet with the muni-

EVANGELISTIC FEVOR RALLIES DEALERS

AN OLD-TIME FIRE and brimstone speech by Texas-born W. Heartsill Wilson launched the "Buy Now" campaign of Toronto car dealers. An assistant vice-president of Chrysler Corp., Mr. Wilson is shown as he held 1,500 car dealers spellbound with his evangelistic oratory. Peeling off his jacket, he said, "I'm like a strip-teaser. The hotter you get the more I take off." At left,

he sneers, "You're all half dead. You have to work without ceasing — not indulging in coast. At right he ends his tirade with "Amen." The football-type rally, complete with pretty girls and a band, was held to instill confidence in the car dealers trying to beat the current recession in their business.

Civil Service Leader Maps Big Program

By JACK VAN DUSEN
Canadian Press Staff Writer

OTTAWA (CP) — J. C. Cal Best, president of the newly-formed Civil Service Association of Canada, describes the federal employees' union as "a lusty infant" soon to become a giant. It will be the tall Negro's job for the next two years to bring this 26,000-member "baby" to maturity.

Arson Suspected As Fire Destroys Freedomite's Home

CRESTON, B.C. (CP) — The home of a former Sons of Freedom Doukhobor leader and that of a young woman acquaintance were destroyed in separate fires at nearby Wymndel this week. RCMP here said Thursday they suspect arson.

John Lebedoff, former leader at Krestova, B.C., of the fanatical religious sect, was in another part of the Creston Valley last Tuesday when fire destroyed his three-room, shanty-like home. The flames apparently started under a porch.

Thursday, Herb Williams, owner of a house which he rented to Peggy Berkeoff, 19, discovered a fire in the building and the house was razed before he could obtain help. Miss Berkeoff is reported to be a friend of Lebedoff.

No one was injured in either fire. An RCMP official said both fires were believed to be of incendiary origin.

The Sons of Freedom Doukhobors have been frequently blamed in the past for arson and dynamite in protest against provincial government authority and against placing of their children in a dormitory school away from the custody of their parents.

There was no immediate indication, however, that they were responsible for the blazes at Wymndel, five miles west of here. Creston is in the heart of the Doukhobor country, five miles north of the American border and 50 miles southeast of Nelson.

INTERNATIONAL LABOR

Unemployment Up Everywhere

GENEVA (Reuters) — Unemployment is increasing almost everywhere, including the Communist countries of Eastern Europe, says an International Labor Organization report.

This was one of the points made in a 98-page review of the world employment situation prepared for a conference, which opened here today, of the ILO's governing body.

Urging that action be taken in good time, the United Nations

One of his first moves to add stature to the CSAC will be to go after the 80,000 other federal civil servants still not organized.

SEEKS AGREEMENT

"We're after just as many of them as we can get," the six-foot one native of Nova Scotia said in an interview.

He also seeks a collective bargaining agreement for civil servants. It would have to be a specially drafted to meet the peculiar situation in which the employer is the federal government.

The CSAC was formed this month with the merger of the Civil Service Association of Ottawa, of which Mr. Best was vice-president, and the Amalgamated Civil Servants of Canada.

Mr. Best, a collective-bargaining expert with the federal labor department, was unanimously elected first president of the CSAC for a two-year term, at a salary of \$3,000 annually.

NOVA SCOTIA NATIVE

Cal Best was born in New Glasgow, N.S. His father, a native of Barbados, recently retired after more than 40 years as a porter

on the Canadian National Railways.

After graduating from Dalhousie University with a Bachelor of Arts degree in 1948, he started taking journalism at King's College.

At college he was a correspondent for the former Halifax Chronicle. Thinking of entering law, he was starting on his Master of Arts degree in 1949 when he was offered a job in Ottawa

and joined the labor department, as administrative assistant to the director of the research branch. A civil servant for seven years, he has taken a two-year leave of absence from his post as administrative officer in the labor-management co-operation division of the department, so he can handle the full-time post of CSAC president.

He married the former Doreen Phillips of Sydney, N.S., last fall. They have an uptown apartment where their love of modern Swedish furniture and good music is apparent. Mr. Best has an extensive Beethoven collection, but admits he likes "good jazz."

Physical Fitness, Education Stressed

By JIM PEACOCK
Canadian Press Staff Writer

EDMONTON (CP) — Importance of education and physical fitness of Canada's youth has been emphasized by the Canadian Legion's week-long Dominion convention, ending here today.

As business sessions closed and delegates summed up, one high officer in the legion said it is apparent that the days when the legion met "to wave the flag and vote for conservation" are past.

An off-repeated request for compulsory military training in Canada came up again Thursday, but the emphasis in the resolution containing it was on education and physical fitness of both the young men and women of the country.

David L. Burgess of Ottawa, 68-year-old First World War veteran who won the Military Cross while serving in the Royal Flying

Corps, was returned by acclamation to the legion presidency for a second two-year term. Erle Burgess of St. Thomas, Ont., was re-elected Dominion chairman.

URGE VIMY SERVICES

In its major business transactions Thursday the convention did the following:

1. Approved resolution asking registration and medical examination of "all young people" on entering high school, a high school physical training program and compulsory full-time training of one to two years in the armed forces.

The motion implied that young women as well as young men should be required to take training, but it was pointed out the intent of the motion was not to have women conscripted into the army.

2. Asked that the government maintain defence expenditures to meet NATO and United Nations obligations and to develop to the fullest the best brains of Canada by subsidizing higher education and scientific research.

3. Supported wholeheartedly the Canadian Legion Youth Training Plan, formerly known as the Canadian Olympic Training Plan, and designed to raise both the standard of Canada's athletes in international competition and the standard of physical fitness of all Canadian youth.

4. Voted to ask the federal government to establish an annual national Remembrance Day service at the Canadian Memorial at Vimy Ridge, site of one of the bloodiest battles of the First World War.

Delegates were told that no national remembrance service is held at Vimy on Nov. 11.

5. Voted to ask the postal department to issue a national penny postage stamp to be circulated across Canada 30 days before Nov. 11 each year.

6. Voted to ask cancellation of the fee collected by Broadcast Music Incorporated and the Composers, Authors and Publishers Association of Canada on written and recorded music used for charity.

7. Recommended that Dominion Command and all branches of the legion must hold Remembrance Day services on Nov. 11.

8. Voted to appoint a committee to study fully the possibilities of legion action designed to assist elderly veterans in matters of morale, health and welfare and social activities.

More than 1,200 persons have been in Edmonton to attend the conference, first held in Alberta. They represent 228,000 legion members throughout Canada and in parts of the United States.

Centennial Year Queen at Summerland will be chosen from among these seven candidates at the Summerland Centennial Celebrations next Wednesday. The candidates are, left to right, back row: Carol Hackman, Shirley Anderson, Elsie Karlstrom; second row, Diane Young, Francis Rump; front row, Gail Penney, Susan Lauer.

Summerland Ready for Gay Centennial Day

SUMMERLAND—Next Wednesday, June 4, is the big day in Summerland with everything readied for the Centennial celebrations.

Butcher Here for 47 Years, Retires

Supermarkets will never replace the independent meat dealer, according to Wilfred (Bill) Watts of Pentiction who retired this week after 47 years as a butcher here.

He says people prefer buying from the independent store because they like to get personal attention "and supermarkets are very impersonal places."

Despite competition from the chain stores Bill has noted a steady increase in sales since he opened his meat market on Main Street in 1925.

Watts' Meat Market has merged with Hunt's Meat Market, another well-known Pentiction business, it was announced today. With the retirement on June 1 of Bill Watts, his son Syd and Alf Hunt will be joint proprietors of the new company.

UNDER PROTEST

After taking such an active part in the work and play of the community, 70-year-old Bill Watts is retiring under protest.

"The doctor has ordered me to take it easy but I hope to help out occasionally with the business," he told a Herald reporter today.

Mr. Watts, a tall, genial figure, well known around town, was born at Blagdon near Bristol, England, the son of a butcher. He worked as a \$2.50 a day odd-job man in Summerland for a year before getting a job with the Canadian Expeditionary Force in Europe in the first world war, he has been serving the public in Pentiction ever since.

Main Street had only a handful of businesses when Bill opened his establishment in the Gower Block 33 years ago. At that time cattle were slaughtered locally and kept on ice. Today the carcasses arrived in refrigerated rail cars from packing houses at Calgary or Edmonton.

In 1926 Bill installed a refrigeration plant at his shop—first of its kind in the city.

It was in 1947 that he transferred to the present premises at 378 Main Street.

Bill, who married his wife Gertrude in 1920, will continue to live at 609 Eckhardt Avenue East. His other son, Harry, works in sales promotion for a New Westminster radio station.

During retirement Bill intends to maintain interest in lawn bowling and curling. He will also remain active in the Masonic Orion Lodge and the Canadian Legion.

BILL WATTS

University Camp For Band Students

A two-week summer band camp will be held at the University of British Columbia, July 2-15, sponsored by the Extension Department and the College of Education.

Dr. Lloyd Sling, College of Education, UBC, is director of the course which will consist of morning, afternoon and evening sessions. Band conductor is Robert

Mrs. A. Mosdell was elected president of the Queen's Park PTA at the May meeting this week.

Also elected were Mrs. I. Kay as secretary, and P. Birch, vice-president.

Mrs. W. Bonin was returned for a second term as treasurer.

The new executive will be installed at the June meeting.

P. C. Cantrell, junior boys counselor, spoke on the difference between curriculum and time tables in junior high and elementary schools.

M. Barr of Columbus, Georgia, one of America's outstanding band directors.

Mr. Barr's band has won acclaim in various state and national festivals, and given concerts in Chicago, New Orleans, St. Louis and New York. In March, 1958, they presented a concert at the Music Educators' National Conference in Los Angeles.

Assisting Mr. Barr will be W. Cumming, high school music teacher from Powell River.

At the conclusion of the course the band students will give a public concert in the University Armory.

Tuition fee for the two-week course is \$20. Accommodation is available in the university dormitories, supervised by university counselors, at a charge of \$5.50.

Private professional tuition will be available if required, at an additional fee.

Supervised swimming and other sports activities will also be arranged.

Applicants are urged to register now as accommodation is limited. A \$10.00 deposit, and a letter of recommendation from teacher or school administrator, should accompany applications to the Extension Department, UBC, Vancouver, 8.

Appeal on Impaired Conviction Upheld

A Pentiction railway engineer won his appeal against conviction on an impaired driving charge before Judge M. M. Colquhoun at Pentiction, yesterday.

The judge quashed sentence of 14 days imprisonment imposed on Glen Edward McInnes by Oliver Magistrate J. H. Mitchell.

Judge Colquhoun found there was reasonable doubt that consumption of beer caused McInnes to drive a truck erratically on April 5 when he was stopped by police on Highway 97 north of Okanagan Falls.

Defence counsel F. H. Herbert said when McInnes was arrested he had not had a drink for six hours. He claimed appellant was not suffering from effects of alcohol but was fatigued due to lack of sleep. Faulty steering caused the vehicle to sway, he submitted.

Crown counsel Frank C. Christian argued that drinking five bottles of beer had aggravated McInnes' fatigue resulting in impairment of his ability to drive.

He suggested it was not reasonable that a person "can create a condition of fatigue by drinking beer" and then claim that drink had not adversely affected his driving.

Two Drivers Fined In Oliver Court

OLIVER — In police court here before Magistrate J. H. Mitchell, this week, Steve Toth Jr. of Osoyoos was fined \$10 and costs for speeding on Highway 97.

As the result of a minor accident Wednesday night when the small English type car she was driving overturned on Fourth Avenue.

Mrs. Marie Klein of Oliver was fined \$10 and costs for driving without a driver's licence. Mrs. Klein suffered minor injuries.

Named to Scout Training Post For B.C.-Yukon

A leading Lower Mainland businessman has been named by the Provincial Boy Scouts Executive as the assistant provincial commissioner for training for British Columbia-Yukon.

He is Victor Wiebe, 50, of 3804 Edinburgh, Burnaby.

Mr. Wiebe is vice-president and a director of Standard Oil Company of British Columbia. He is also refinery manager of the company's Stanovoy plant in Burnaby.

His duties are to encourage and develop training for Scouts and leaders. The Provincial Commissioner is Desmond F. Kidd.

Eddie Matsu Top Student of 39 Graduates at Summerland

SUMMERLAND—Eddie Matsu won Summerland High School's top award at the 13th annual graduation exercises yesterday afternoon.

He received the Verrier Trophy, awarded annually to the best all-round student in the graduating class, presented by the principal, A. K. Macleod.

The Summerland Scholarship of \$250 was won by Diane Durick. To qualify the student must have high academic standing, show qualities of leadership, and go on to attend university. Diane, who also wrote and read the class poem, received her award from

Reeve F. E. Atkinson. Phyllis Fabbri was the valedictorian for the 30 students in the graduating class.

Other scholarships and bursaries were won as follows: Summerland Kiwanis Club Student Bursary, \$100, to Len Burden, presented by J. E. O'Mahony, club president.

Summerland Teachers' Association Bursary, \$200, to Ruby Gronlund, presented by H. V. Start.

Canadian Legion Bursary, \$250, divided between Jean Northrup and Amy Berry, and presented by W. C. McCutcheon, local piem, received her award from branch president. This bursary

is to a student son or daughter of a veteran, going on to UBC, technical school, or other vocational training.

North American Mathematics Society prize to Ruby Gronlund, presented by J. P. Tamblin, vice-principal.

Cranna awards, new this year, to Diane Durick and Phyllis Fabbri, top academic students in the graduating class, presented by Dr. Maxwell L. Howell of UBC.

PTA Industrial Arts prizes, to Ron Manning of the graduating class and David Petrichuk, Grade Eleven, presented by Mrs. Victor Parker.

Following the presentation of diplomas and awards, there was a banquet attended by more than 200 persons, followed by the graduation dance.

Thanks were expressed by Mr. Macleod to the Grade XI committee headed by John Wooliams, Ed Hannah, Arlene Ambrose and Anita Watson with D. M. Loan of the teaching staff as supervisory member, who organized the day's events.

Christian Reformed Church Service every Sunday 2 p.m. Anglican Parish Hall

To him that worketh not, but believeth on Him that justifieth the ungodly, his faith is counted for righteousness. Even as David also describeth the blessedness of the man unto whom God imputeth righteousness without works. Saying, Blessed are they whose iniquities are forgiven, and whose sins are covered. — Rom. 4:5-7.

facilities offered because "in education lies the strength of the country."

E. E. Hyndman, inspector of schools, noted that the graduating class represented 50 per cent of those who started in Grade Three. According to surveys 19 per cent of the graduates will go on to higher education and 12 per cent to university, a higher average than the seven per cent for Canada.

SPECIAL SPEAKER Dr. Maxwell L. Howell, of UBC, a graduate of the University of Sydney, Australia, was special guest speaker emphasizing to the graduates, "the importance of 'Getting Along With Others.'"

Following the presentation of diplomas and awards, there was a banquet attended by more than 200 persons, followed by the graduation dance.

Thanks were expressed by Mr. Macleod to the Grade XI committee headed by John Wooliams, Ed Hannah, Arlene Ambrose and Anita Watson with D. M. Loan of the teaching staff as supervisory member, who organized the day's events.

Athletic awards of big block letters were won by Carol Reinertson, Carlton Sheeley, Len Burden and John Menu with honorable mention going to Edna Glaser and Ruby Gronlund who have already won big letters.

Small blocks went to Grace Johnson, Eleanor Raincock, Emilie Bonthoux, Satoshi Euehada and Ed Menu. Presentations were made by G. E. Mundie.

New trophies for the most popular player and most valuable player in senior boys' basketball, each chosen by the players, were awarded to Len Burden and Vern DeWitt, respectively.

Len Burden and Ruby Gronlund also received other top athletic trophies, presented by P. W. Minchin.

ACTIVITY PINS Activity pins for interests other than athletics were presented by K. D. McInnes to Pat Boyd, Len Burden, Dot Carston, Diane Durick, Phyllis Fabbri, Ruby Gronlund, Ed Matsu, Bonnie Wilson, Ron Wilson and Wendy Wright.

The graduation ceremonies, attended by a large audience, were described as "a colorful day to recall with students surrounded by friends and well-wishing people."

Reeve F. E. Atkinson, speaking for the municipality, sounded a Centennial note when he said: "This educational system has been developing for 100 years."

He added that two out of every three taxpayers' dollars go to education and the student is the loser if he or she does not take advantage of the educational

Public works administration and board of works, 17.6 cents. Power and light, 19.2 cents. School contribution, 13.9 cents. General administration, 12.9 cents.
